I went to Beeman as a kid, i remember when kids dads used to stop in with deer and turkeys in the bed of their trucks and anyone in the classroom that wanted to see we would all go out, we did field trips to dairy farms....where the fuck did they go wrong.

I remember when we used to be a proper country and put people with mental illnesses in places where they couldn't harm others or themselves. Now we parade them out in front of children! Do what you want in your bedroom not the classroom.

Everyone involved literally should be shot in the face with a bullet and keep shooting them in the face until the life has left their body. This is disgusting.

Everyone who wants to show up to the elementary before the drags show up on April 10th join my group. If they want schools not to be safe for are children, so be it. Imma get a big group together.
