Re: Joshua Macura

On July 28, 2022, during a private dispute between himself and town listers regarding a property-tax assessment, Joshua Macura represented during a phone call with the town lister that he was acting "as an agent of the government." He then questioned whether the lister had committed a criminal trespass and told the lister that he was in "hot water." Because the dispute did not involve his official capacity, I am providing this information to you pursuant to my constitutional obligations under *Giglio v. United States* and *Brady v. Maryland*.
