

New Spaces at NCUHS!

1 file • Chris Young • 3 days ago • Friday, Aug 23 at 4:16 PM • **North Country Union High School**

Good afternoon everyone.

Since we got our latest test results on Tuesday, we have been hard at work creating new learning spaces for our students so that we can make sure we serve all of our students in person. As you can hopefully see from the pictures and attached video, the work is extensive and requires coordination with our local first responders, state agencies, contractors, and our own staff. The to-do list includes making sure we have heaters, wi-fi, fire alarms and extinguishers, evacuation and safety plans, furniture, technology, and communication all in place. This obviously takes a lot of time and we have accomplished a great deal in the three days since we received our latest round of test results. In addition to the tents, we have identified and repurposed several spaces on and near campus that can be used for classrooms. We will be sending out more details next week as we iron out all of the logistics for safety planning and scheduling, and we will host an Open House on August 29th at 5:30pm for anyone who would like to get a look at the new (and hopefully short term) campus configuration.

Thank you all for your support and patience; you will get more information next week as we continue to fine tune the plans and the spaces. Please let us know with any questions.

Chris Young
Principal, NCUHS
